MOHIT SHARMA

I am an IBM certified data scientist, with a 3 years of industry experience. I am well versed with data science algorithms and regression practices and have an advanced level proficiency in BI tools (powerBI) and programming languages (R and Python). I like to crunch numbers and present them in an intuitive and artistic manner to tell a meaningful digital story.

Jul-2018 | Mar-2018

Enterprise Architecture Analyst

Astrazeneca, Commercial IT — Chennai, TN

- Conecptualized a Business Architecture Framework (inspired from TOGAF) to improve the portfolio planning, making sure IT portfolio is aligned with Global Business objectives
- Conducted the impact analysis of 7 local application of Astrazeneca India on business to help speed up the process of rationalization

Feb-2018 | Jul-2017

Data Scientist

Astrazeneca, Commercial IT — Chennai, TN

- Developed a text classifier using SVM with an accuracy of ~80% to classify incidents in 17 categories
- Streamlined the process of root cause analysis by incorporating the model, saving ~ 3 manhours weekly

I have worked in a variety of roles ranging from data analyst to business analyst to data scientist. I like collaborative environments where I can learn from my peers.

PROJECTS

Jun-2020 | Apr-2020

Corona-Virus Country Tracker (Now defunct)

Shiny

- Developed a dashboard to visualize the corona virus cases of countries with an ability to compare the cases between two countries
- The dashboard was built using the Shiny framework in R programming language

Dec-2019 | Jul-2019

TidyTuesday

Github

- Frequently participate in an online community competition of data visualiztion by R4DS

Oct-2019

Data Science Question a Day

Github and Twitter

- Managing the twitter and github repository of Data Science Question a Day
- Using social media to teach concepts of data science by posting multiple choice question on twitter along with solution in blog post
- In a short span of 3 months, garnered 2000+ followers, and averaging a reach of 200K+ per month

Sep-2019

Capstone Project

Github

- Developed a text based image search engine as a part of Python 3 specialization's capstone project
- Using text input as a search parameter the engine produces the relevant facial images

Jul-2019

Looking through the jobs of NYC

Kaggle

- Conducted an exploratory data analysis into the jobs of New York City using R

Jun-2019

Learn New Words

Google Assistant Action

- Developed a chatbot on Google's Assistant platform using Dialogflow to help students improve vocabulary for competitive exams like GRE
- The chatbot flips the traditional way of learning and uses fill in the blanks similar to exam's questions, rather than flash cards
- The chatbot has an extensive vocabulary of 4000+ words and sentences, using them in a interactive quiz style

I regularly blog about data science concepts and R programming on my blog Data Science Question A Day and occasionally explore publicly available data on kaggle.

SPECIALIZATIONS

Sep-2020

Python (Advanced)

HackerRank — HackerRank

- HackerRank certified Python advanced developer

Sep-2019

Python 3 Programming

University of Michigan — Coursera

- Successfully completed a 5 course online specialization program, including capstone project
- Achieved an overall average grade of 100%

Mar-2019

IBM Data Science Professional

IBM — Coursera

- Successfully completed a 9 course online specialization program
- Achieved an overall average grade of 96%

Feb-2019

Statistical Learning

Stanford Online

- Successfully completed the Introduction to statistical learning course offered by Rob Tibsherani and Trevor Hastie
- Achieved a grade of 103% (includes bonus marking)

Feb-2018

Advanced R Programming

Jhon Hopkins University — Coursera

- Successfully completed the Advanced R Programming course offered by Roger D. Peng on Coursera
- Achieved a grade of 97.5%

I am passionate about education and self learning. I keep myself up-to date with latest skills in demand by regularly engaging in online courses.

EDUCATION

Jul-2017 | Jul-2013

B.Tech, Civil Engg

IIT Madras — Chennai, TN

- Graduated with a minor in Management Studies
- Graduated with an overall CGPA of 7.21/10

May-2013 | Jul-2012

XII (CBSE)

Vijayvergiya Bal Vidyalaya

Kota, Rajasthan

- Graduated with an overall grade of 92.2%/100%

May-2011 | Jul-2010

X (CBSE)

Kendriya Vidyalaya

Gurugram, Haryana

- Graduated with an overall CGPA of 10/10
